CEDAR/REDWOOD BENCH

Every house should have one of these. Three would be perfect. One for the garden. Another for the entryway or mudroom. And the last for your porch. It's certainly the most elegant seat for pulling off muddy boots. And an ideal way station for bags of groceries before everything finds its proper place. Solid mortise-and-tenon joinery. Sculpted redwood seats shed rainwater like a good raincoat.

Dimensions: 49"w 19"d 39"h

Seat height: 18"

Material: Salvaged Old Growth Redwood and Cedar from barns, bridges, water and wine tanks.

Finish: Penetrating oil. Designed to be used outdoors. Wood will grey over time if left to the elements. A loving coat of boiled linseed oil once a year will help replenish the wood. Wax finish available for indoor use.

Production Time: 8 - 16 weeks
